

K-LOVE serves me in my local community in a way that no local station is able to provide. It is an outlet for Christians worldwide to share in our beliefs on a national level.

If K-Love was not on the local stations we would be without national worship, the vast selection of Christian music and the message of God in our lives.

I think the message K-LOVE provides the public interest to Christians and those seeking answers to their questions. K-Love is much more than just a station it provides me the ability to worship in my day to day life.
